

BHUMIKA JAIN

Full Stack Developer | jainbhumika54@gmail.com | (+91) 7828255442 | Balaghat, Madhya Pradesh

Full Stack Developer with 2+ years of experience building scalable web applications using Java, Spring Boot, React.js, Angular, PHP, MySQL, **Hibernate, JPA**, and REST APIs. Skilled in backend development, frontend integration, authentication & authorization, database optimization, CRUD operations, API testing, and responsive UI development. Experienced in building recruitment dashboards, enterprise applications, and e-commerce platforms. Strong understanding of MVC architecture, microservices, SDLC, Git/GitHub, and clean code practices.

WORK EXPERIENCE

Full Stack Developer | Freelance

Feb 2026 – Present

Software Developer | Brightorial Pvt. Ltd.

May 2025 – Feb 2026

IT Developer | Lord's Mark Insurance Broking Services Pvt. Ltd.

Dec 2024 – Apr 2025

Junior Java Developer | NIT Solution Pvt. Ltd.

Jan 2024 – Oct 2024

TECHNICAL SKILLS

Programming Languages: Java, PHP, JavaScript, TypeScript, SQL, HTML5, CSS3

Frontend: React.js, Angular, Tailwind CSS, Responsive Web Design, Responsive UI, Frontend Optimization, Axios

Backend: Spring Boot, Hibernate, JPA, REST APIs, RESTful Web Services, Microservices, MVC Architecture

Databases: MySQL, Database Design, Query Optimization

Security: JWT-based Authentication, Authentication & Authorization

Tools & Technologies: Git, GitHub, Version Control, Postman, API Testing, IntelliJ IDEA, VS Code, Maven, MySQL Workbench

Development Concepts: CRUD Operations, Database Integration, Debugging & Problem Solving

PROJECTS

1. JobSahi Dashboard | Brightorial Pvt. Ltd. [May 2025 - Feb 2026]

- Developed backend modules and integrated frontend-backend workflows for a recruitment management platform handling 5,000+ registered job seekers, recruiter operations, job postings, and interview management.
- Developed and integrated **10+ PHP REST APIs** for applicant management, interview scheduling, recruiter notifications, and job tracking, enabling smooth real-time data exchange between backend and dashboard.
- Built secure backend modules using **PHP + MySQL** for applicant and recruiter data handling, supporting management of **1,000+ active recruiter and applicant records**.
- Integrated backend APIs with React.js dashboard modules including applicants, jobs, interviews, and recruiter workflows, reducing manual data refresh efforts by **40%**.
- Implemented **full CRUD operations**, advanced search, filtering, analytics modules, and calendar scheduling features across **4+ major dashboard sections**.
- Optimized MySQL queries and API response handling, reducing average API response time by **25%** and improving dashboard load performance.
- Managed scalable backend workflows for **100+ active job listings** and recruiter-side applicant tracking.
- Performed API testing and debugging using Postman for **GET, POST, PUT, DELETE, PATCH endpoints**, improving API reliability and reducing integration issues by **30%**.
- Tech Stack: React.js, Tailwind CSS, PHP, MySQL, REST APIs, Axios

2. Sanitary Ware Shop Website | Full Stack E-commerce [Nov 2025 - March 2026]

- Built a complete e-commerce platform for sanitaryware and fittings products with category-based browsing and product management, streamlining online product discovery and order workflows.
- Developed responsive product listing pages, category filtering, and detailed product views, improving product browsing efficiency by 40% across desktop and mobile devices.
- Created 20+ backend REST APIs using Spring Boot for product management, customer handling, authentication, and order workflows.
- Implemented Admin, Brand Organizer, and Customer modules, improving workflow efficiency and access management across multiple users.
- Added secure authentication and database integration using Spring Boot and NeonDB, ensuring reliable user and order management with enhanced data security and scalability.
- Integrated checkout and order processing workflows while optimizing UI/UX, reducing customer purchase steps and improving overall shopping experience by 30%.
- Implemented CRUD operations, soft delete functionality, and advanced search/filter modules for efficient product handling, reducing management effort by 45%.
- Optimized backend performance and database queries using NeonDB, reducing average API response time by 25% and improving application reliability.
- Tech Stack: Java, Spring Boot, NeonDB, REST APIs

3. Employee Management System | Academic/Full Stack Project [Jan 2024 - May 2024]

- Designed and developed a complete employee lifecycle management system for handling employee records and organizational operations, streamlining core HR workflows and administrative processes.
- Developed scalable backend services using Spring Boot with RESTful API architecture and built 15+ REST APIs for employee and organizational workflows.
- Implemented authentication and authorization for secure access management across Admin and Employee modules, improving application security and access handling.
- Built employee CRUD modules including employee creation, updates, deletion, and profile management, reducing manual HR processing effort by 50%.
- Integrated Angular frontend with backend APIs to deliver dynamic and responsive user interactions, improving workflow efficiency and user experience.
- Used Hibernate and JPA for database operations and optimized query performance, improving response time by 30%.
- Designed relational database schemas with validations and constraints to ensure secure and accurate data processing.
- Improved application maintainability through layered architecture and reusable service components, reducing development effort for new feature additions by 35%.
- Tech Stack: Java, Spring Boot, Angular, Hibernate, JPA, MySQL, REST APIs

COURSES, TRAININGS AND CERTIFICATIONS

- NIT Solution — Java Spring Boot & Angular Development
- ITVedant — Full Stack Web Development with Java
- IBM — Java Fundamentals Certification
- HackerRank — Java & SQL (Basic + Intermediate) Certification

EDUCATION

Master in Full Stack Developer with Java

ITVedant Education Pvt. Ltd., Mumbai | 2025 | 60.27%

Master of Computer Applications (MCA)

Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV) | SGSITS College, Indore, M.P. | 2024 | CGPA: 6.97

Bachelor of Computer Applications (BCA)

Makhanlal Chaturvedi National University (MCU), Bhopal | Arihant Computer College, Balaghat, M.P. | 2022 | CGPA: 9.12
